Dear Alaina,

Mom and dad are taking me to the Adler planetarium this saturday. They said I could invite a friend to join us. Would you like to come with us? The exhibit we'll be seeing is called Shoot for the Moon. It tells the story of Jim Lovell, a nasa astronaut, and his space adventures above earth. The exhibit also features the fully restored Gemini 12 spacecraft, flown by captain Lovell in 1966. There will be other interactive displays including Moon Wall, Lunar Leap, and Moon Vision. I think we'll have a good time. I really hope you can go.

Your Friend,

Bonita
